

COVID-19 Keeping Parents & Caregivers Informed

When one of our students contracts COVID-19, contact the Principal Jane Rowlands or delegates Mark Walters, Matthew Wright (Deputy Principals) or call the school (9250 5600) who will enact our School Response Plan.

How will the community be informed?

When will the community be informed?

Once a positive case is being investigated, a holding letter will be sent out to parents and caregivers. If the case is confirmed by the Health Department, the school will communicate the Response Plan to you as soon as possible

What do parents and caregivers need to do?

1. Ensure your contact details are up to date
2. Wait for official communication from the school Leadership Team
3. Avoid misinformation which might be shared through social media or chat groups
4. Have access to Seesaw and Connect in case your child needs to learn from home
5. Be familiar with the latest advice
6. [Click here](#) for more information
