### **Floreat Park Primary School Board**

#### **Parent Representative Nomination - Candidate Profile**

I wish to submit my nomination for the role of **Parent Representative** on the School Board at Floreat Park Primary School in 2019.

I sincerely believe that I can contribute to the work of the School Board by offering support and input into the development the school's objectives within it's Business Plan. As a parent of two children and as a primary school teacher, I firmly believe that I possess the necessary skills, experience and knowledge to contribute professionally to the thriving educational provision that exists at Floreat Park Primary School.

My career compasses more than twenty three years of continuous, progressive work in the education field. My teaching career in the UK included working in school administration as a Deputy Principal and later as a Principal in small rural communities. Since moving to Australia more than 11 years ago, I have followed my passion for music. I currently work as a Music Specialist teacher in a local primary school. I am also involved in many musical community projects. As a result I am extremely passionate about the arts in education and how music, art, drama and dance benefit and contribute greatly to the development of the whole child. In addition, I am very interested in the use of technology to enhance educational outcomes for students across the curriculum. This is especially important within the technological world in which we live.

I am a father of two children, Ela who is currently in Year 1 and Owen who currently attends Kindy Red. Within the educational provision of the school and under the guidance of their teachers, both our children are very happy and content at school and they look forward to engaging in all curricular activities on a daily basis. I realise that this level of engagement is crucial to ensure they reach their potential as individuals.

As a father, I greatly value the importance of the parental role in a child's educational success - a role which is becoming increasingly challenging within the world we live in today. I believe by working together with the school, parents and teachers can create and maintain a high-quality educational program for students. For this reason I would be more than happy to represent parents on the school board. I would actively take on all responsibilities within that role seriously to benefit the education of all students who attend Floreat Park Primary School.

Thank you.
