

KIM LATHAM

I have been a parent at the school for 7 years and currently have three children at FPPS in years PP, Y2 and Y5. Previously I was involved in both the Early Learning P and C, the P and C and the Executive Committee, heading many Grounds improvement projects including, the new playground, The Skyline, the original on-site Kindergarten playground, as well as other infrastructure and improvement projects around the school including future Master planning.

I currently work full time as an Architect in a Project Management and Design role. My professional experience spans Urban Design, Master planning, Education, Residential, Retail, Landscape and Commercial.

Over the last 15 years, I have been involved in several volunteer roles, previously being the Club secretary at Cottesloe Rugby Union football club, as well as managing various teams and in the preceding year working in a Grants and Fundraising role.

This year I took up a coaching position at the Floreat based YMCC Hockey club, as the Minkey Coordinator.

I'd like to nominate for a position as a parent representative on the School Board, and contribute to the School in a meaningful manner, as an advocate for equality and excellence in education.

I believe my previous involvement in the community and Floreat Primary School, as well as my background in Design and management can offer creative and diversified insights that would benefit the strategic direction of the school.
